# A Breeding Breakthrough... 'Cora' Vinca!

Eighteen years ago, Goldsmith founder Glenn Goldsmith made a collecting expedition. He came home with Vinca genetics that were resistant to disease...

Knowing that gardeners loved Vinca, but struggled often with its performance in challenging weather, his goal was to significantly improve the performance and durability of this garden favorite. Over the years, he and the Goldsmith breeder team worked tirelessly on perfecting the genetics. At last... success! 'Cora' Vinca is the answer!
